Plant and Insect Identification Websites and Apps

These apps and website may be useful, but they aren't foolproof. Please be aware of costs that maybe associated with some apps.

Websites:

1. **Cornell Weed Identification:** https://blogs.cornell.edu/weedid/

2. **USDA Plant Database:** https://plants.usda.gov/home

3. **New Jersey Weed Gallery:** https://njaes.rutgers.edu/weeds/

4. **Insect Identification for the Casual Viewer:** https://insectidentification.org

Mobile Apps

1. **PictureThis:** https://www.picturethisai.com/ - 10,000 "local" species; not all weed ID. Includes general plant ID.

2. **PlantNet:** https://identify.plantnet.org/ - Interesting options for non-domestic plant ID. Allows users to contribute photos to resources.

3. **iNaturalist:** https://www.inaturalist.org/ - Crowdsourcing platform. For casual observation. Usable on all device types. Offers plant, insect, animal, and bird ID.

4. **Seek by iNaturalist:** https://www.inaturalist.org/pages/seek_app/ - Live, quick ID of plants, animals, fungi, insects, and bird.

5. **iMapInvasives**: https://www.imapinvasives.org/mobile-tools - Reporting for invasive species for citizen scientists and natural resources professionals.
